What unites four musicians to revive a style of music which has got nothing but scorn and derision ever since trouser legs got tighter?

Indeed my dear friends of splendid taste: The love for legendary bands which ruled the world at a time when drums had to be hit hard. THE WEIGHT redefine driving bass lines, distorted guitar solos and screaming lead vocals so to say the most glorious and resplendent time in the history of rock music.

Adam & Eve expanded their consciousness with the forbidden fruit and THE WEIGHT expand yours with their passion for 60s and 70s rock music.

Heavy, groovy, bluesy, sexy and a bit nostalgic - THE WEIGHT guide their audience to landing fields of leaden zeppelins, the deepest purple or to the who's who when it comes to throwing TV sets out of hotel room windows. With their own and self-written material, honest and devoted to a time when music was real, THE WEIGHT can't be too heavy for you, can it?

DEUTSCH

Heavy, groovy, bluesy und vielleicht auch ein bisschen nostalgisch: THE WEIGHT erinnern ihr Publikum unweigerlich an eine Zeit des tiefen Purpurs, der bleiernen Luftschiffe und der wild rudernden Windmühlen. Dabei ist es die mit lässiger Attitüde vorgetragene Zeitlosigkeit, die The Weight gerade und schlussendlich ausmacht.

Die klassische Rock Vierer-Combo THE WEIGHT braucht den Vergleich mit ihren Idolen keinesfalls zu scheuen, und weiß vor allem „live on stage“ zu begeistern und ihre Virtuosität und musikalische Wucht in vollem Gewicht zur Geltung zu bringen.
